Title of Patent, Date of Priority	Country	Patent No.	Status
Electrically Conductive Composite matrix and Method for Producing the Same Priority: 9 March 1998 * nationalized in D, CH, F, NL, UK	*Europe	EP 1068164	granted
	Austria	AT 4100440	granted
	Australia	AU748492	granted
	Canada	CDN2,322,395	granted
	Japan	JP4536921	granted
	Norway	N322319	granted
	USA	US6,635,192	granted
Galvanic Anode System for Corrosion Protection of Steel and Method for Production Thereof Priority: 4 August 2004	Europe	EP 05768008.4	pending
	Canada	2,577,375	pending
	USA	US 7,851,022	granted
Hydraulic Binder Priority: 11 August 2008	Europe	EP 2313352 A1	pending
	USA	US12/846,124	pending
	Brazil	020110013708	pending
	Australia	2009281686	pending
	China	200980140228.8	pending
	India	1835/DELNP/2011	pending
	Canada	2,736,772	pending
	South Africa	2011/06731	pending
Verfahren und Vorrichtung für die Überwachung und Steuerung von Kathodischen Korrosionsschutzanlagen (Procedure and Device for Monitoring and Control of Cathodic Corrosion Protection Devices) Priority: 11. 01. 2007	Austria	AT 504728	granted
	Germany	15734 PT/DE	pending
